

Addiction Recovery in Syracuse, Utah

 renaissanceranchogden.com/addiction-recovery-syracuse-utah/

Addiction is a huge problem in our country today, as people often turn to alcohol or drugs in order to reduce physical pain or “numb” themselves from unpleasant emotions that seem difficult to face. Spiritual emptiness is a common issue that leads to physiological pain, and some people try to fill the hole by abusing one substance or another. Gratefully, there are people out there that can help you heal your own mind, body, and spirit and lead you to a life of sobriety. With an experienced staff equipped with tools for your entire family, ***Renaissance Ranch in Syracuse, UT is here to answer your questions 24 hours per day, 7 days per week. Call 385-222-3737 to learn how we can help you achieve a life of sobriety.***

Outpatient Drug Rehabilitation

Adults who are suffering from a drug addiction of any kind can find help in Syracuse, Utah at Renaissance Ranch. Most of us tend to think of drug addicts as people who abuse heroin or cocaine, yet the reality is that prescription drug abuse has become extremely common. Painkillers and anti-anxiety medications can be useful in short term situations under the supervision of a doctor but are highly addictive and difficult to eliminate once a habit is formed. At Renaissance Ranch, we are committed to helping you succeed with a sober life and offer customized treatment programs to ensure your specific needs are met. Imagine how it would feel to regain the joy and freedom you once felt in your life! Sections I, II and III of the [outpatient drug addiction recovery program](#) will give you a feel of how we can assist you in your return to health.

Outpatient Alcohol Rehab

By following the same program schedule as mentioned above, those with an alcohol addiction have the opportunity to participate in a ***12-step alcohol recovery program*** at Renaissance Ranch which addresses the underlying causes of an addiction as opposed to simply treating symptoms of the addiction itself. Lasting behavioral changes can only occur after a fundamental change in one’s thinking habits and by addressing all aspects of physical, mental and spiritual health. 12-step programs help to fill the emotional void of emptiness and significantly improve one’s chances of long-term success. Our compassionate and experienced staff members are here to teach you how to use tools which give you the personal power to prevent a relapse in the future and truly take control of your life.
