

Drug and Alcohol Rehabilitation Center in Marriott-Slaterville, Utah

 renaissanceranchogden.com/drug-and-alcohol-rehabilitation-center-in-marriott-slaterville-utah

If you or a loved one is suffering from alcohol or drug addiction, in all the worry and uncertainty, there is a way forward toward a new life beyond drug abuse. Caring addiction recovery specialists at Renaissance Ranch Marriott-Slaterville Utah can help you reach a meaningful, balanced life. We help you build the skills that will free you from alcohol or drug abuse and transform your life into one that is full of purpose and opportunities for a rewarding and happy future.

The Fulfilling Journey to Recovery

The process of recovering from drug or alcohol addiction should feel satisfying — like an exciting opportunity to begin pursuing inspiring new goals and plans beyond treatment.

The experienced addiction therapists at Renaissance Ranch Marriott-Slaterville Utah work with each person in a recovery program tailored to fit his or her individual needs.

Therapy works to help overcome emotional and motivational challenges. These may include the need for recovery from past (sometimes repressed) traumas, anxiety, loneliness, mood disorders, depression, and other issues that can impact mental health and lead to addiction.

Renaissance Ranch alcohol and drug rehabilitation center in Marriott-Slaterville UT *always* has an experienced therapist available to answer your questions, 24 hours per day, 7 days per week.

We encourage you to contact us anytime you're ready at [\(385\) 222-3737](tel:3852223737), to learn how we can help you make the change to a new life free from the pain of alcohol or drug addiction.

Identifying Signs of Alcohol or Drug Addiction

Some key signs of drug or alcohol addiction can make it easier to recognize the severity of the circumstance that you find yourself or your loved one in. If you or someone close to you is experiencing these conditions, be encouraged to reach out for help as soon as possible:

- Often missing school or work
- Taking much time trying to acquire the drug
- Declining grades or job performance
- Inability to go without using the substance for an extended period.
- Using increasing amounts of the drug or alcohol in order to feel its effects
- Depleting personal finances to buy the substance
- Lost interest in previously enjoyed activities
- Failed attempts to quit using the substance
- Withdrawal symptoms during attempts to stop using
- Committing crimes to get more of the drug
- Risking physical harm to oneself or others while under the influence of the substance
- Persisting with using the substance even knowing the serious consequences it's causing

Services Provided

The Renaissance Ranch alcohol or drug rehab program offered at our Marriott-Slaterville Utah addiction treatment center consists of a series of four phases:

Intensive Outpatient Drug Addiction Treatment

Our drug rehab center in Marriott-Slaterville features a highly effective outpatient program that makes it possible for people to continue their lives. They can continue in their jobs, enjoy being with their family and friends, and having their recreational activities. At the same time, they can do the work to learn about their addiction and to understand how to overcome it.

We use a long-tested 12-step program for addiction recovery, strengthened and supported by cognitive behavioral therapy, recovery skill-building, and other individual therapies, plus family therapy. These together can help people transform distorted patterns of thinking and beliefs that have led to unhealthy and ultimately self-damaging behaviors.

The Intensive Outpatient Program (IOP) for substance abuse treatment is the primary treatment program of the Marriott-Slaterville rehab center. The program involves:

- 90 days in length.
- Evening sessions Monday through Thursday, 6:00 – 8:00 pm, OR
Morning sessions Monday, Wednesday, and Thursday, 10:00 am – 1:00 pm.
- 3 to 4 group therapy sessions each week.
- A one-on-one therapy session each week.
- Individual sessions as needed.

GOP or General Outpatient Substance Abuse Treatment:

The program for the second phase of rehab in Marriott-Slaterville is 90 days. The General Outpatient Program (GOP) program is for months 4 through 6 of living drug-free, and it involves:

- 2 group sessions evenings either Monday – Thursday, 6:00 p.m. – 8:00 pm, OR
mornings Monday, Wednesday, Thursday, 10:00 am – 1:00 pm.
- A one-on-one session each week.
- Individual sessions as needed.

Relapse Prevention

The Relapse Prevention extension of the rehab program helps the recovering person learn how to succeed long-term in managing stressors, triggers, cravings, alcohol or drug-addicted acquaintances, and places that put him or her at risk of relapse. We help you learn to recognize what you may experience after completing rehab, develop a plan, and build the skills you need to manage temptations to return to drug or alcohol abuse.

The continuing care program for relapse prevention is during months 7 through 12 of alcohol or drug-free living. This phase of rehab involves:

- 6 months of continued participation.
- 1 group session per week, either morning or evening.
- A one-on-one session bi-weekly.

Individual Therapy

Individual counseling is available on an as-needed basis. Our staff of therapists helps our rehab center clients through their addiction recovery journey, by helping them identify hindrances to healing and strengthen mental and emotional coping and life management skills.

You'll never have to try to face challenges you've struggled with in the past on your own again in the future. You can live with peace of mind in knowing that your Renaissance support team is here to help you with either group or one-on-one counseling daily or weekly, anytime you need us – for life.

Family Therapy

Often, families are struggling in many ways due to the drug or alcohol addiction of their loved one. So, we understand that recovery needs to include the whole family. A fundamental aim of therapy for addiction recovery should be to help the family of the person working to overcome addiction to find *their* way through the recovery process too.

Renaissance Ranch Family Therapy focuses on helping repair broken familial bonds and helps family members cope with the emotional and financial toll that so often comes with addiction. The program further fosters open communications and aims to help rebuild trust.

The family therapy program helps families recognize and work through underlying issues that can contribute to emotional, psychological, and other effects that often lead to drug or alcohol abuse. Working on those issues with experienced therapists can help a family build the skills to prevent such issues from impeding recovery.

Ultimately, the goal of our family therapy program is not only to treat the person in rehab but also to help the entire family drawback together in a way that they may not have thought was possible.

Supplemental Program

Supplemental therapies provided at the Renaissance Ranch Marriott-Slaterville drug rehabilitation center Utah, include:

- Experiential Therapy
- Cognitive-Behavioral
- Trauma and Abuse Survival
- Life Skills
- Meditation and Relaxation
- Anxiety and Depression
- Shame Issues
- Motivational Interventions
- Other Specialized Therapies

Why Choose Renaissance Ranch for Drug and Alcohol Rehab?

Renaissance Ranch's addiction recovery program creators received the "Best Of State" award, for the same program we use in our Marriott-Slaterville rehab center. Over 100 judges evaluated the nomination of Renaissance Ranch for excellence in mental health treatment, creativity, and the center's contribution to the betterment of Utah.

Our award-winning drug and alcohol rehabilitation center in Utah features customized therapy to help every individual work through his or her personal issues contributing to alcohol or drug addiction.

We work with smaller group session sizes, so that everyone can receive more individual help and attention. Our rehab clients also work closely with our exceptionally dedicated and qualified staff of addiction recovery therapists in one-on-one counseling. We focus on healing the *whole person*, for strong physical, mental, emotional, and spiritual well-being.

Research has shown that maintaining continued care significantly increases success in sustaining long-term recovery after treatment for drug addiction. So, Renaissance Ranch continues providing treatment services *for life*, to ensure that when you leave the rehab program, you will always know we're here to give you the support you need throughout your future.

Dave Rose and the Renaissance Ranch truly have a passion for recovery and helping others. I would recommend any loved one and would trust this facility with their care and support. [REDACTED]

I am very thankful for Renaissance Ranch this program has helped my daughter very much. She has reached her one sobriety and her life has completely turned around for the better and she is now helping others. Thank you from one very happy mother and thank you for your family support program too. [REDACTED]

Hope can be restored here. Love y'all! [REDACTED]

Renaissance Ranch is amazing! It has completely changed my life. I came to Renaissance Ranch a year ago desperate and hopeless lost to alcoholism. They showed me how to have hope again and help set the foundations for my recovery! I love the therapist ran groups as well as all of the other great group leaders that have taught me so much about addiction and recovery. I would not be here today if it wasn't for the constant support I have received through this program! If you are struggling with addiction this is definitely a great program to help you on your journey to freedom! [REDACTED]

Great place. Highly recommend [REDACTED]

Renaissance Ranch is an amazing program. Dave and his team are extremely dedicated, honest, and ethical. Sobriety is a long-term commitment and the program at Renaissance Ranch gives you the tools you need to feel your best. I respect the owners' mission and believe in their commitment to their patients. [REDACTED]

This place is the Best. If your addicted to any substance RR can help you overcome it!!!! [REDACTED]

Great place to find freedom from the bondage of self. [REDACTED]

The treatment team at the Ogden location is amazing, they know a great deal about effective treatment as well as how important family support is, this is a excellent option for the addict you love and wish to help, Dave thank you so much for the love and passion you put into your work. [REDACTED]

It's a great program! I have a friend who went through the program. [REDACTED]

Thank you so much saved my uncle's life. [REDACTED]

I've been going to the ranch for 6 weeks and not sure where'd I be if I never enrolled. Renaissance is like family and the group convo has got me through sobriety. I'm finally getting my life back together because of this place. Kassidy and Dave are amazing individuals. I Highly recommend Renaissance Ranch if your struggling with addiction.

I would recommend this center to anyone looking for help with addiction. My husband went to Renaissance Ranch and he is doing great. I did the family program and it has helped me so much. Thank you!

Several years ago I went with a loved one to a court ordered addiction program. While I could see that the counselors truly wanted to help their clients, I often left thinking that it was a very cold environment. I never heard anyone there speaking from experience. From the moment I met Dave, I knew he got it and understands the struggles. He freely shares about his own road to recovery. He has always treated me with kindness and respect. Most of all, I see his example of how to live in recovery. I found hope that I can finally conquer my addictions. If you are looking for a place to heal yourself and your family from the ravages of addiction, here's the place to start your journey.

I have a friend who struggled with substance abuse issues for years that went to Renaissance Ranch in Ogden, Ut. It is great to see he has turned his life around and is doing great! I would recommend anyone who has a family member or friend battling substance abuse issues to contact them.

I am a 24 year old man and came to Renaissance with unmanageable depression, anxiety and anger issues after I tried to quit abusing alcohol and marijuana. I admitted I felt scared and pathetic for even needing treatment. Immediately after my intake interview I joined my first group session and soon learned it wasn't pathetic at all to seek treatment, it was a sign of great strength. The group has always accepted everything I've said with open hearts, challenged my close mindedness with care, and prompted me to share even when I feel closed and isolated. The Ranch has made me realize no one is ever alone. People care for one another here, absences are noticed with concern and relapses (if they

happen) are talked through and understood. Shame is NEVER a part of this dynamic. Some sessions are fun and full of laughter and jokes, some are intense and very introspective. At the end of each day, we have all worked through some aspect of our addiction. Without the support of this group I would not have the tools to continue practicing sobriety and reclaim good health and happiness.(However, I did gain about 20 pounds because members often bring sweets to share. You win some you lose some) [REDACTED]

I am forever grateful and in debt to Renaissance Ranch Ogden. The love and support that they offer to myself and others who have struggled with addiction far surpasses to other treatment centers that I have been involved with. The program focuses on the personal development and self-care that is needed to be successful. One-on-one sessions and group meetings are available, and in turn the group members all become extended family that truly care about the success of one another. I am so happy that Renaissance Ranch Ogden has given me a new found hope and ability to tackle any and all obstacles that may come to face, and do so in a positive manner. Truly saved my life, and the well-being of those closest to me. Thank you so much! [REDACTED]

The Ranch really cares about your personal recovery. It is a friendly loving environment that has helped me and many others to live in peace without addiction. This facility is about helping people not about money and numbers. Thanks love you guys. [REDACTED]

Our family will be forever grateful for this program and the people who work there!! [REDACTED]

My brother Ryan is a kind and strong soul. So am i, but Im still lost. The ranch is helping and digging to find my inner self. I respect that. But I'm not rich, so I'm using what I got. And it really is worth it. [REDACTED]

I got my Brother to do the renaissance ranch program. For his alcohol addiction. He's been going for a 2 weeks now and he really enjoys going. I've been able to talk to him

more and his anger problems have been going away. Also his alcohol problem has been decreasing. My brother says that the groups he's been going to don't judge him and he realizes that there are other that there are people there with the same problems if not worse, Dave is a commendable guy, I got to meet a gal their named Charlotte she was awesome. They do one on one counseling with each person. I would recommend this program with any one that needs help in any addiction problem or anger issues. It's been only 2 weeks and I can notice a big difference in my brother already. Thank you Renaissance Ranch. [REDACTED]

Finding Renaissance Ranch IOP in Ogden was literally an answer to prayer. Words cannot express how grateful I am for this program and the people who provide it. It has helped me reconnect with God and remove heavy burdens I have carried around for decades. For the first time in a long time I feel like I have real hope - and the support I need to keep moving forward. The opposite of addiction is not sobriety. The opposite of addiction is connection! The program at RR guides you toward that connection with God, with yourself, and with others. Anyone and everyone could benefit from the knowledge, insights, and support available through this program. There are so many types of addiction, but in the end they are all just different ways to try and cope with stress, fear, pain, etc. This program helps you realize there is only ONE solution to truly overcome addiction and take your life back. Finding Renaissance Ranch is one of the best things that has ever happened to me. So grateful to be a part of it. [REDACTED]

Very nice people. Very good place. Great place to go to get help. [REDACTED]

Amazing staff!! Love this place. [REDACTED]

This place is awesome! [REDACTED]

Renaissance Ranch gave me a new life of freedom, happiness and joy!

I found renaissance ranch at a time when my meaning to keep going on had depleted.. I was giving up. As a last resort I started attending groups and from day one something was different from the other programs I looked at.. I felt like they truly cared and they knew where I had been, and truly cared where I was going! the overall feeling you get from this place is something that can't really be described! Whatever it is I can honestly say it has changed and saved me! It's one of those things that if your struggling, you need to come here and feel it for yourself!

I truly appreciate the concept of Renaussance Ranch. I feel that there concept of addiction recovery is whole and complete.

The team at Renaissance Ranch Ogden truly understands how to provide individualized counseling and care. In speaking to them, you'll quickly understand you've found somewhere that truly cares about your mental, spiritual, and emotional health. I highly recommend them.

This is a great place I would highly recommend it!

I knew someone who went through here and they had nothing but great things to say about this place.

Uncle went through the program here. Would recommend again.

★★★★★★

My uncle went through this program. It has not only helped him and his immediate family so much, but the rest of our family as well. I am grateful for the devotion and love they have towards anyone who comes in. I would definitely recommend them to anyone.

★★★★★★

I'm am so grateful for the staff and their program that brought me to a new and thankful life. Their patience and dedication to my recovery literally saved my life.i highly recommend them to anyone truely looking for help in their recovery.

★★★★★★

You are NOT A BURDEN, YOU HAVE A BURDEN that is to heavy to carry. Allow others to help lift this burden.....(Professionals, people just like you and loved ones) Just come!!! That's all they asked. I was wondering if it would REALLY help? I've struggled on and off for 20 years of my life. With every substance. And let me just say this. Why did I wait so dang long? I learned why I did the things I did. Even though I didn't want to. I learned why my habits had taken over my amazing life. But most importantly. I learned I was not unique. All kinds of people!! No matter their status, job, religion. SO BENIFIFICAL!! For me and all involved! Come, experience this PLEASE!! Real life is so much better!!

★★★★★★

I love this place! The staff helps you stay on the right path toward sobriety. They're awesome to work with. I recommend this to anyone that wants help!! If I can give more stars I would.

★★★★★★

Know a couple of guys that went through there. They do an amazing job.

★★★★★★

I'm amazed at the extra attention given to detail at Renaissance Ranch Ogden, they make everyone feel welcome, they sincerely care for each and every persons needs. The

counselors doors are always open if we need some one on one time with them. I didn't know how much I needed their help until I started attending, If you or someone you know needs help with their addiction, I highly recommend Renaissance Ranch Ogden it's warm and welcoming. It's been a fantastic experience on my road to recovery. [REDACTED]

My family had a great experience with Renaissance Ranch. They were empathetic and very sensitive to any and all unique situations. [REDACTED]

There are so many wonderful things to say about this incredible program that 1) it would be impossible to address all the terrific aspects in one short review, and 2) no matter how eloquent I could write the words will still be inadequate to express just how great this program really is. How could I say how grateful I am for this program that literally has saved my life. When I came into the program I was broken, defeated, overwhelmed and had all but given up. This was my last attempt to save my life. By the time I came to the program I had a suicide plan and means with the intent to end my life. With a family history of completed suicide I knew if I was going to act upon my plan that I would dang sure make sure it worked and that I would complete it not just attempt it. At the time I finally entered the program life felt much harder to continue to live than it felt to just give up and die. I am blessed there are other people in my life that I just didn't want to hurt to that degree but even so I really was "done" with living. Tired of being addicted and depressed, tired of trying to put my life back in order and unable to do so, I was willing to give my life one more try and the only thing I could think of doing was reaching out to a program and professionals that just might be able to help me. My insurance was not contracted with any dual diagnosis (dx) programs (substance abuse and mental health issues) in this area. So I went in search of a program that might be able to meet my needs. I called several programs in the area and continued to be disappointed and defeated because they would not accept me for one reason or another, or they were not truly dual dx programs. Then I finally talked to Dave Rose with the Renaissance Ranch Addiction Treatment Center and for the first time in many many months I finally found a little bit of hope. He knew my story, he had lived my story, and now he was busy helping others change the ongoing chapters of their lives. I felt accepted and understood from the beginning, both with my addiction and with the serious aspect of my mental illness. I had been down for such a long time and without hope for such a prolonged period that I still did not hold out a lot of hope. At least when I talking with Dave about this program I could tell here was a real person who truly sounded genuine, passionate and informed about these diseases. He was transparent, honest and encouraging and I could tell he really understood what was going on with me because he told me my story before I told my story to him. He truly knew what I was doing, what I was going through, what I was

feeling and just how low I had fallen.(please see 2nd and 3rd part of this review, thanks)

I know Dave Rose personally and he is one of the best people I know. If you, or someone you care about needs help, this is the place to go. Dave will make sure the kind of treatment needed will be given. 

My family and I are forever grateful for Renaissance ranch. Dave rose is my uncle and he was at a point in his life where he felt like it was over and he couldn't find a way out. It got to the point where it was about to tear our family apart, and ever since he came here it has strengthened his relationship with his immediate family especially his wife Chris and the rest of us as well. They got sealed in the temple together and changed him into a completely different person for the better. Love this program! 

I've been so impressed with the tremendous blessings our family has seen. We have watched Dave Rose and his family increase spiritually and his example has helped our family and so many others. 

The Ranch saved my life in 2009! My husband went to rehab there and I was able to participate in the family program they offered. I thought my husband was the one that needed "fixin" but I learned that addiction is truly a family disease.....I was able to find my Savior and apply his atonement into my life.....and for that, I am forever grateful!!! 

In 2004 I was searching for a rehab facility for myself. I met with David Rose and was so impressed. He helped me get a scholarship for the program. I attended Therapia women's center in St George and it's the best decision I ever made. David made me feel so comfortable and was so knowledgeable because he has been through it himself. I will

never forget his kindness and willingness to help me. I am celebrating 4 years sober this year thanks to Renaissance Ranch and Therapia! [REDACTED]

Great place to go for treatment. I'm forever grateful for the Ranch and the experiences I had there. [REDACTED]

Dave Rose and Renaissance Ranch were an amazing resource to me when I was serving as an LDS Bishop. I was able to see the miracle of addiction recovery and healing for one my good friends and ward members who had struggled with drug addiction for most of his life. He has been sober for 5 years now. The blessings of freedom from this awful sickness are immeasurable to this good man and his family. [REDACTED]

I am personal friends with someone who went thru this program. His story is inspirational. Renaissance Ranch is a place of hope and success. [REDACTED]

I had the opportunity to work with Dave Rose for several years. He approaches this mission with empathy, love and compassion. If you, or your loved one, need addiction treatment,; trust that Dave and Renaissance Ranch will provide the highest standard of care. Be assured that you'll be treated with honesty, integrity and dignity. Helping addicts and families to recover from this affliction is the priority of Dave Rose. I'm aware of the service which Renaissance Ranch Ogden provides,, and would highly recommend this program. Steven Brown, LCSW [REDACTED]

I am very grateful for Dave Rose and the Renaissance Ranch Ogden Staff. I am currently in The IOP program, and it has provided me with a safe place to go and share how my day is going. It has also set me up with the structure I need in my life right now. The facility is beautiful inside, and has a strong "spirit of recovery" feeling inside. I feel very blessed to be in IOP with Renaissance Ranch Ogden and have another chance at life, I would

definitely Recommend Renaissance Ranch Ogden to anyone battling drug

Addiction! Adam T. Honstein 

I have known Dave Rose since we were both 15 years old, at Ogden High School in the early 1980's. I have always loved how accepting he has been of me, even in my painfully shy, awkward early days. I could see he was hurting, yet never understood why, and this was the time he began struggling with substance abuses. I definitely could relate with him, yet my issues were different. After High School graduation, about five years later, we worked together, and it was blatantly obvious he was deep in his struggle with addiction, yet I didn't know what to say, so didn't say anything. He was still that likeable guy, just lost within himself. Time passed then recently he opened the South Ogden Renaissance Ranch Addiction Recovery Center, and invited me over for a tour. We shared our life experiences with each other, and I feel so blessed to see the beginning stage, the intermediate stage, and then finally the end result of recovery. He has always been that amazing guy, yet he needed to find in himself what the rest of us who loved him saw all along, yet if we would have told him about it, he would not have believed it. He invited me to sit in on the family group evening sessions, and I accepted. After all, one can never learn too much. These group lessons on support and encouragement for loved ones struggling with addiction have been an eye opener for me, and I walk away filled with so much love for these people. GOD truly loves all his children!! I highly recommend this program to anyone who feels lost and alone. Dave Rose is truly a shepherd of the lost sheep. 

When I first met with Dave I was not really sure I wanted help. I just met with him because I was curious about treatment and really quite honestly wasn't ready to quit Heroin. I have battled with Opiate addiction for about 8 or so years. I still had some drugs at home and so I told him that I will start treatment on my time. So I continued to use for about 2 more weeks and then finally started treatment. During those 2 weeks Dave always kept in contact with me trying to get me to come to treatment earlier but I was stubborn and went when I was ready. The first night I was supposed to go to group I took Suboxone too early so I was sick. Two people from the group came and talked with me as I was laying sick on the couch for about an hour and they really made me feel welcome. During the first few weeks of coming clean I would text Dave and he really helped me pull out of some really dark days. Renaissance Ranch has really been my saving grace. The counselors are amazing and really care. I love going to group each night. Everyone in the group are great and I love how I can for once be my honest true self and there is no judgement from anybody. When I first started the group was really small and it was kind of discouraging and there were a couple people that hardly came because they were battling with relapsing and now the group is a good size and really fun. We have all really bonded and I

look forward to going each night. After 3 months you can switch to 2 nights a week but for me I would rather keep going 4 nights a week because of how much help I get and I also love to share and help others. I would highly recommend Renaissance Ranch Ogden to anyone that needs help with addiction. It's an amazing treatment program and Dave and the counselors truly care about you and are always willing to work with you on any problems you may have. Thanks Renaissance Ranch Ogden!!! 107 of sobriety so far! [REDACTED]

After I got home from a residential rehab last fall I felt I needed some ongoing support, I visited with Dave and began an outpatient program with the team at Renaissance Ranch. It was a great experience, I found genuine people who truly care about helping others find hope. I am thankful every day for my sobriety and Renaissance Ranch was a great support on my road to recovery. I highly recommend anyone looking for help with their addictions to visit with Dave. Thank you Dave and all the staff for your kind hearts, love and support.

Lewis Brown [REDACTED]

Had a friend go through this drug rehab program in Ogden with Dave and the team over there. I attended a support group and found the direction and flow to be very motivating. He's been sober for several years now because of these guys. I had complete forgotten about that until I just came across em online and figured Id review because it worked. If you have addiction or need drug rehab assistance, the Renaissance Ranch in Ogden is awesome. [REDACTED]

My brothers dependency on drugs and alcohol had taken over his life. He had been in other rehab programs but they did not work for him. Thanks to Renaissance Ranch he was able to overcome his drug and alcohol addictions. He has not only gotten his life back but he has been able to build his relationships back with his wife and daughter. This program is amazing and I recommend it!!! [REDACTED]

Renaissance ranch saved my dads life. He was in and out of rehab facilities and we had lost hope of anything helping him, until the ranch. The people were kind, attentive, and made sure to support him on his journey to sobriety. He made many friends he considers

to be like family at the Ranch. He is 11 years sober now and it is all thanks to this place.

Call them. [REDACTED]

I was a patient of Renaissance Ranch in 2007. The concern and care for my sobriety and my well being was far beyond what I expected. 8½ years later and still sober. The people make all the difference and "The Ranch" has the people. Even all of this time later those people still care and I consider them lifelong friends. [REDACTED]

Renaissance Ranch has been the life's blood of my recovery from drug and alcohol dependence. I didn't believe life was even possible without a drink or a drug, I was hopelessly addicted. Today I'm free and I don't have to drink or drug ever again. I don't have to walk down that road of continuously feeling angry, hopeless or ashamed of myself. I have been givin a new life, I feel liberated and alive, and it's all do to this simple program. I highly recommend Renaissance Ranch to anyone struggling with substance abuse or alcohol addiction [REDACTED]

My name is Dixie Davis. I am David's mother in law. David is the results of many prayers of family members. Our daughter Chris and David had fallen away from the LDS church. They both discovered in their own ways the wonderful plan of salvation and the saviors wonderful gift of repentance. Thanks to the Renaissance Ranch they are miracles and examples that the Ranch can turn lives around. Dave also helped our son in law Mike Kihom and his wife, our daughter Carrie Kihlm. Of course let us not forget our Heavenly Father and Savior Jesus Chris are the guiding light in this program. Miracles can happen never give up. [REDACTED]

I went through the ranch in 2006 I had lost all hope and did not believe ther was any way out. I was desperate and was finally willing to go to any length . Renaissance gave me the tools and helped me reconnect with my father in heaven. I owe my life to renaissance ranch and am blessed to have formed many life long friends. ... [REDACTED]

I will forever be grateful to the opportunity I had to enter the Ranch, now over 10 years ago. Addiction is a spiritual disease as much as anything else in my opinion, and although I felt alone at the time, came to realize that a power greater than myself could restore me to sanity. The Ranch provided the environment and instruction I needed to begin to recover from the devastating effects of alcoholism. David Rose and his wife Chris Rose, are amazing people who have a deep love for the addict that is still suffering. I would highly recommend contacting Dave or referring him to any of my family, friends, or others. [REDACTED]

if anybody needs help with addiction this is the place to go. The Ranch has turned my life around and gave me a reason to wake up and be sober every morning the staff is more than amazing and wonderful with each and every client. I thank god every morning for this place and the new life it has giving me. [REDACTED]

Dave Rose and the Renaissance Ranch truly have a passion for recovery and helping others. I would recommend any loved one and would trust this facility with their care and support. [REDACTED]

I am very thankful for Renaissance Ranch this program has helped my daughter very much. She has reached her one sobriety and her life has completely turned around for the better and she is now helping others. Thank you from one very happy mother and thank you for your family support program too. [REDACTED]
